

Name: Rebecca Taylor
Age: 20
Foyer: DCH Plymouth Foyer
Talent Bond: £500
Purchase: Nikon camera

What has your talent bond enabled you to do/achieve?

Having my own camera enabled me to do my course work in my own time and practice using the various settings to capture better photos. This helped me to get my work done quicker and achieve higher results.

How has your situation changed since receiving your talent bond?

Since receiving my talent bond and getting my camera it has helped me tremendously with my course work. I have completed year 2 successfully and now I am half way through year 3, which will give me the qualifications to apply for the type of work I want to do, fashion photography or other work within the fashion industry.

Will your talent bond purchase continue to support you?

My camera comes with me everywhere as you never know when the next opportunity may appear for capturing a good photo.

Additional info from Rebecca

The camera has allowed me to practise and develop the skills I have learnt at college. I am currently doing a fashion and textile course. It has allowed me to flourish and advance my passion as a hobby as well as my future career. I will be able to learn so much and express myself through photography and film by being able to use the camera in my own time.

My dream career is to become a photographer, blogger or a model. Since I have had the camera I have covered the Foyer open day, taking photos of the event and interviewing those who attended for the Foyer newsletter. I have also been asked to take photos of Plymouth landmarks which have been displayed in one of our projects. The camera has helped me build my confidence in who I am and what I want to achieve in my life.

Support more young people experiencing homelessness to achieve their dreams.
One donation - twice the impact. Midday 28/11 - Midday 5/12.
