

Name: Braintree Discovery College

Foyer: Braintree Foyer

The Foyer

About Braintree Discovery College

Launched in April 2015 Braintree Discovery College provides a broad curriculum of free courses to young people at the Foyer and people from the local community. It aims to remove the barriers to learning and empower young people to take control of their own personal development. At its heart is a partnership between our students and an ever growing number of individual volunteer tutors and organisations who have knowledge they wish to share. Braintree Discovery College offers courses which are completely on the learner's own terms and as a result it has been very successful in re-engaging young people in learning. They have been fortunate to have amazing volunteer tutors and organisations working in partnership with them. Discovery College tutors are volunteers who give their time to inspire young people, sometimes this is talking about their life experiences and values or experience of working in a particular career. The development of the Braintree Discovery College has meant that the Foyer has become an important hub for the wider community, enabling local people to gain easy access to potentially life changing courses and events.

Support more Foyers like Braintree help young people reach for the stars.
